Presented by Nikki Gelso and Diana
Neskovska from AT10 Education, L.L.C.

Description:

This webinar will address critical discussion points and questions for school teams about assistive technology (AT) systems. **Learning Outcomes** include:

- Participants will learn the components of how to consider AT in an IEP
- Participants will develop guidelines for appropriate responses to AT requests
- Participants will improve skills in the documentation of AT tools and services
- Participants will understand and use tools to create a District/school-wide AT referral, tracking, monitoring, and implementation system

Participants will be given multiple “ready-to-use” resources to support their roles in navigating and developing procedural handbooks, District/school referral systems, enhancing communication techniques and improving cultural practices.
