

University of Wyoming Project ECHO in Assistive Technology (AT)

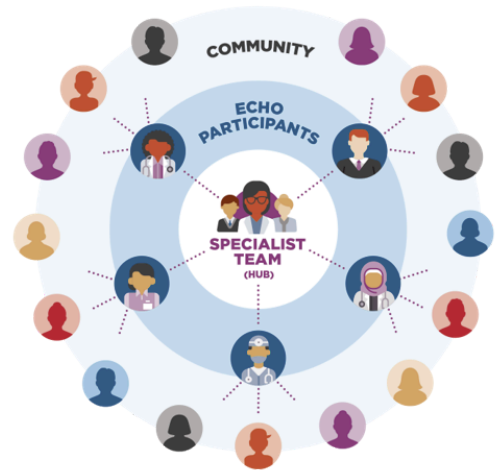

Join us this Spring for the Assistive Technology Learning Community!

This series will focus on AT home modifications and environmental supports

UW ECHO in Assistive Technology provides training and the sharing of best practices for educators and service providers to consider, implement and evaluate the use of assistive technology to improve outcomes for students.

Network participants include users of assistive technology and their families, assistive technology professionals, specialists and teams, school administrators, general and special education teachers, paraeducators, case managers, school counselors, school psychologists, state agency staff, and special education service providers, including OTs, PTs, SLPs, etc.

ALL TEACH, ALL LEARN
