AT10

Description:

This two-day series offers an in-depth exploration of Augmentative and Alternative Communication (AAC) topics designed for professionals who are ready to move beyond the basics. Created for those who have previously completed an AAC assessment, the series focuses on expanding knowledge, strengthening skills for supporting individuals with complex communication needs, and building confidence in practice.

Over the course of two virtual sessions (4 hours each) and a minor outside-of-class assignment, participants will explore:

- Triennial Evaluation Best Practices for AAC
- Cultural Considerations with AAC
- Bilingual AAC Assessments and Applications
- Switches and Considering More Than One
- Cortical Visual Impairment (CVI) and AAC
- IEP Challenges and AAC Trends: Partnering on Complex Cases with High Profile Perspectives

Audience: This series is ideal for AT/AAC Specialists, SLPs, special educators, and related services providers seeking to deepen their AAC expertise and bring new strategies back to their teams.

Please note: This series does **NOT** include instruction on how to conduct AAC assessments. If you require knowledge on how to conduct AAC assessments, please visit our website and look at the AAC Assessment & Implementation Course, which is held every Fall and Spring.

Dates & Times via Zoom:

12/04/26 - 8:00 am-12:00 pm PST

12/11/26 - 8:00 am - 12:00 pm PST

Fee: \$700 per person

Participants may earn 1 PDU credit (10 hours) through the University of Massachusetts Global at an additional cost.

Participants will earn a certificate upon completion.

Refund Policy: No refunds are given. If you cannot attend, you may participate in the next calendared series or replace the participant.
