

The Aging and Disability Resource Center Presents

Dementia 101

Education for All Community Members

Many of us come in contact with community members with dementia.

Whether you help a loved one, neighbor or friend, work with the public, or would just like to know more, this information will help you. At this free presentation you'll learn about dementia, a general term used to describe a decline in brain function. The session will cover:

- differences between Alzheimer's and dementia
- signs and symptoms of dementia
- an overview of the most common types of dementia
- how dementia affects the various parts of the brain

Presented by

Trisha Witham

Dementia Care Specialist

Free event
