

Election Day Accessibility Checklist

The purpose of this checklist is to allow you, the poll worker, to quickly assess whether your polling place has barriers for people with disabilities on Election Day. If you identify barriers, you should inform the municipal clerk and/or your supervisor so the barrier can be addressed as soon as possible. Many barriers can be easily addressed on Election Day.*

PARKING

For polling locations	that have parking lots:		
■ The accessible spa	ce(s) are clearly marked v	with the standard accessib	ole parking sign.
■ The accessible spa	ce(s) are located nearest	to the accessible entranc	e.
There is at least or	e van-accessible space.		
There is an access	ble way to get from the pa	arking lot to the sidewalk.	
The parking lot is p	aved.		
For polling locations	that do NOT have parking	g lots:	
	ble passenger drop-off ar be designated on Election	rea, or temporary on- or of n Day.	f-street accessible

All ramps have han	drails (and edge protection	on), if necessary.	
The path of travel is	s well-lit when necessary.		

^{*}This checklist does not identify all barriers that a person may face at the polls. Answering positively to the checklist does not mean a polling site is in compliance with such laws as the Americans with Disabilities Act (ADA).

ENTRANCE TO THE BUILDING
 The entrance to the building is free of steps or has a ramp or elevator. The accessible entrance to the building is unlocked. The accessible entrance to the building has an automatic door opener or a call button, or there is someone stationed at the door to open it. There is signage or a greeter stationed at the entrance with information on requesting curbside voting.
TRAVEL WITHIN THE BUILDING
 The accessible route to the voting area is clearly marked with large print signs if it is different from the main route and/or if it is not immediately inside the accessible entrance. Interior doors along the accessible route are unlocked and either have automatic doors or are propped open. If there are stairs to get to the voting area, there is an accessible elevator available. Hallways are well-lit and free of low-hanging objects and items protruding from the wall or sitting on the floor. All rugs and mats along the accessible route have low pile and are securely fastened (or removed).
VOTING AREA
Instructions for voting are printed in Large Print (18-point font or larger) and displayed in a convenient and obvious location.
The path of travel in the voting area is wide enough for an individual using a mobility device to navigate and turn around with ease (minimum of 5x5 feet).
■ There is a table, counter or voting booth that is extra wide at the bottom (at least 36 inches), and at good height (between 28 and 34 inches) to allow someone who uses a mobility device to use it comfortably and reach all parts of the equipment.
Polling booths that hold the accessible equipment are:
■ Housed in the same area of the room as all the other polling booths.
Strategically placed to ensure the privacy of the voter using the machine AND contain a privacy screen.

■ Electronic Accessible voting equipment is turned on, tested, and in proper working order

for electors to use when the polls open on Election Day.

All accessible features are set up and wo headphones.	rking, including tactile devices and
☐ The polling site has the following:	
☐ Signature guide or ruler to assist someo	ne to sign their name in a straight line.
Communication cards or pen/paper to compute the communication cards or pen/paper to compute the cards of the cards o	communicate with someone who is deaf or
■ Magnifying glass to be used by someone	e with a sight impairment.
Extra seating and a policy to allow voters wait to vote and maintain their place in lin	
■ Task lighting at every space in the voting	garea.
