Managing an ADRC is rewarding but demanding work, and it's easy to put the needs of others ahead of your own.

**Choosing HOPE**—Happiness, Optimism, Passion, and Empowerment—reminds leaders that caring for themselves is not a luxury, it's a necessity.

Mark and Wendy Horbinski will share uplifting insights and practical strategies that help you recharge personally while also equipping you with tools to strengthen staff morale and resilience.

This keynote is designed to leave you inspired, refreshed, and ready to carry a renewed sense of purpose back to your teams and communities.
