

# WE ARE **HIRING**

## **Invasive Species Cluster Hire at Virginia Tech: Seven Faculty Positions**

Virginia Tech is seeking applicants for seven tenure-track faculty positions associated with the [\*Invasive Species Working Group\*](#) (ISWG). These new faculty positions will be housed within several colleges and academic units across the Virginia Tech campus as part of a university-wide interdisciplinary investment ([\*Destination Area Phase 2\*](#)) to make Virginia Tech a center of excellence in the science, policy, and management of invasive species. Positions will be announced separately beginning in early 2024. For up-to-date information please frequently check our webpage - [\*Join The Team\*](#).

We are seeking individuals who possess the skills to bridge disciplinary divides, drive innovative solutions, and engage in team science to apply for the following positions (associated college homes are indicated):

- **Applied Economist** (College of Science, College of Agriculture and Life Sciences, and the Kellogg Center)
- **Environmental Law and Policy** (College of Liberal Arts and Human Sciences)
- **Environmental Data Scientist** (College of Science)
- **Invasive Species Research and Extension** (College of Agriculture and Life Sciences)
- **Management Technologist** (College of Natural Resources and the Environment)
- **Global Change Interactions Biologist** (College of Natural Resources and Environment)
- **Invasive Plant Genomics** (College of Agriculture and Life Sciences)
